

About Open Doors

Founded in 2005, the Open Doors Foundation aims to expand the educational opportunities available to a very specialized group of children—those with autism spectrum disorders or *Autism*.

Autism is estimated to affect one in every 150 children. Its cause is not known. Autism research is actively taking place throughout the world and has led to amazing developments. Supporting the Open Doors Foundation brings the latest science and the most qualified educators and therapists to our area. Your support will educate both children and their parents. Your support will bring knowledge and training to teachers, therapists, and everyone who works with these children. Your support helps fund the *Open Doors Summer Camp*- now in its third year - and other ongoing educational projects.

For further information on the Open Doors Foundation- including ongoing, planned, or previous projects- please see our website or contact us at any time.
